\$1.00 A YEAR

NEW HIGH SCHOOL

An immense crowd thronged the new High School hall on the occasion of the dedication last Thursday afternoon. The room was beautifully decorated in the school colors, the letters C. U. H. S. in white against a red background occupying a central place above the platform, while streamers of red were festooned from the ceiling.

The first number on the program, a piano solo, by Miss Avenel Brandenburg was a dashing and brilliant performance. The invocation by Rev. J. F. Jenness was followed by a quartette by four young ladies, Misses Florence Kennedy, Dottie McKenzie, Zena Kennedy and Edna Briggs. Their voices blended perfectly in the dear old song, "Sweet and Low."

Miss Charlotte Davis (1902) sang a solo in fine voice, and with excellent expression.

Contractor George Whitney turned over the keys of the building to the president of the High School board, Dr. M. J. Gates, in a neat little speech. Dr. Gates, in accepting, made a few timely remarks, describing the growth and progress of the High School during the few years of its existence. In speaking of the decision of the school board to build by means of a direct tax, he stated that at the close of this school year, the school was not only free of debt but had money to its credit. In closing, he paid a high tribute to Professor Smith as the man who had done most for the school.

Then followed the presentation of gifts. Charles Beardsley for the class of 1901 presented a handsome picture in a bright and witty speech.

Stuart Smith for the class of 1902 presented a large picture of the planting of the redwood by President Roosevelt.

Miss Anna Ross and Charles Geer in conjunction presented the gift of 1903, a German dictionary in two volumes.

Miss Della Kennison for the Senior class (1904) presented a

big clock with a few suitable remarks.

Professor Smith, for the school, accepted the gifts in an earnest, thoughtful talk expressing his pride in the classes already graduated and his hopes for future students.

After a violin and piano duet by Mr. and Miss Hutton, came the presenting of the flag by Dr. Cooper. For this the audience rose.

He spoke eloquently of the interest of the grey haired boys in blue in the youth of to-day—of how they had fought that just such privileges as these should be theirs. He spoke of the little high school of eleven years ago as being the fore runner of the present greater one, and of his pleasure in having had a share in promoting both the old and the new.

Professor Bennett of the State Normal School, representing County Superintendent Bateman, accepted the flag in the name of the county. He said that the flag stands for higher ideas than commercialism, and greater enterprises than trading and buying—that it must be a standard of excellence and loyalty. In conclusion he welcomed the Campbell Union High School to the great brotherhood of institutions.

Prof. Smith briefly introduced Dr. Benjamin Ide Wheeler of Berkeley, the speaker of the day, who was warmly welcomed by the audience. He said that this was not his first visit to Campbell, as unknown to the citizens he had spent a quiet and restful night among our orchards about a year ago, (referring to the night President Roosevelt's car was sidetracked near town). Since then he had regarded Campbell as a first-class dormitory. He paid a high compliment to Professor Smith as a High School principal of a quality most rare and gave it as his opinion that Campbell needs to be wide awake in order to keep him. He spoke of the high school as being a

peculiarly American institution, and the best indication of the permanency of the nation.

The high school is not preparatory to a college, it is itself a local college, the age and qualifications of its students corresponding to those of the New England college of fifty and seventy-five years ago. By the presence or absence of a high school a community is measured.

The course of a high school should be suited to the needs of the mass of the people, and completed, should be accepted for admission to universities. It should receive pupils from the grammar grades at about thirteen years of age, as it is desirable that they should leave from the grades thus early to escape Arithmetic, the great American fetish, which never saved a soul and is an abomination, causing intellectual and spiritual poverty. Children in the grades should be given live food, full of rich, red blood and the spirit of life, teaching them to live among men. More literature, history and poetry are needed, and music as a fundamental means of uplift to the soul.

In a course of study he would put first, language, its effective, accurate, graceful use being most necessary in the practice of life. Leaders of men must be leaders in expression. Second, mathematics, to train in continuous, effective thinking. Third, interpretation of history, how civilization has developed from one form into another. Learning to have sympathy to see as others see and understand why they do as they do. Fourth, science which teaches what are necessities.

Education is salvation, and the high school must keep in rescue work.

Above all learning is the ability to stretch out a hand to save. The end of education is to get a keel under the boat and give control of the rudder so that it may be rationally steered.

Finally the high school should teach, stand for and inspire public spirit. It should make for flexibility, adaptability and so-

lidity, for health in mind and soul.

It exists to prepare American citizens, men and women to do their work in the commonwealth.

After the singing of the dedication hymn by the audience, the benediction was pronounced by the Rev. George Atkinson. Many availed themselves of the opportunity to examine the building before descending to the grounds below, where the tree planting by Dr. Wheeler, took place. Photographer A. P. Hill, was on hand to perpetuate the scene. The day was perfect in every respect, and there was not the smallest incident to mar the entire harmony of the occasion.

Judge M. H. Myrick came from the city for the special purpose of attending the Dedication of the new High School Building.

Messages of regret were received from Dr. Jordan of Stanford University and from Dr. McClish of the University of the Pacific.

Nearly all the educational institutions of the county were represented.

A. O. U. W. and Degree of Honor Entertain.

An interesting program was given by the A. O. U. W. Monday night the occasion being the visit of organizer Robert Calvert of Santa Cruz. The opening number was a piano solo by Prof. Powers, who played one of the exquisite little compositions of Ethbert Nevin, and in response to an encore gave something in livelier vein.

Mr. Calvert came next with a talk on the A. O. U. W. as it was. He prefaced his remarks by speaking of the improvement in the town since he visited it to organize the lodge seven years ago. The growth of shade trees, the larger number of dwellings and general air of prosperity were noted, the speaker wondered if the people appreciated the paradise they are in.

He spoke of the difficulty experienced in organizing seven years ago, and his pleasure in the present healthy and vigorous

state of the lodge.

Some interesting facts about insurance were given. The Workmen were the first to offer fraternal insurance. Thirty-five years ago, only 70,000 policies were held in the United States, those mostly by rich men as the rates were very expensive. The A. O. U. W. first offered low rates beginning with a flat rate of one dollar a month. 400,000 policies were now held by the Workmen alone, while other fraternal societies which have taken their cue from this order bring the number of policies up to 5,500,000. In the past 35 years, 76,000 families have been aided by the Workmen alone, most of them being \$2,000 policies. The total sum paid by all fraternal orders in this time is \$682,000,000. The Workmen pay out annually \$10,000,000.

Miss Charlotte Davis sang, "Always do as You Are Told", most charmingly, responding to an encore with a pretty little coon song.

Miss Jessie Wood a recitation entitled "Slang," which pleased the hearers so much that another was demanded and given.

Mr. Calvert then spoke on the present of the A. O. U. W., explaining the present system, why it became necessary and the solid foundation upon which it rests. He concluded with an amusing story.

A delicious spread of ice cream and cake was consumed with much enjoyment by the company. This enjoyable part of the evening's entertainment was under the management of the Degree of Honor.

Toasts were responded to by W. R. Coupland, J. H. Carder, E. C. Hurlbert, C. Berry, and Mr. Calvert, Master Workman Lancaster acting as toastmaster. A social time closed the evening's entertainment.

High School Concert.

The concert given for the benefit of the High School fund last Friday night was a musical event of unusual merit. The program of twelve numbers was increased to almost twenty-four, as the excellence of the numbers called forth encores which were granted in most cases. The feature of the evening was, of course, the solos by Mrs. Hartman. Her glorious voice was never heard to better advantage, and the songs chosen were of ex-

ceptional beauty. It would be difficult to name one which revealed the careful trainings of her voice better than another, but one not given in the printed program, "Good-bye Sweet Day" brought out most exquisitely its sympathetic qualities.

The Apollo Piano Player was so operated by Mr. Roberts of San Francisco as to offer a very near approach to the human touch. The accompaniments were especially fine.

The University of the Pacific Quartette, composed of Messrs McCullom, Wright, Towner and Towner were appreciated for the fine blending of their voices, while the humorous character of most of their selections proved especially captivating.

The vocal duett by Mrs. Gates and Mrs. Hartman was a beautiful song by Campana, sung in the original language. It was much admired, being rendered with charming ease and freedom.

The concert was attended by a large number of music lovers, who certainly were rewarded richly. It is the last of the series of entertainments arranged by Professor Smith with such signal success in every particular.

LOCAL NOTES.

Ink and Pencil Tablets, Spelling Blanks, Note Books, etc. only .03. Just think of it! Putnam's.

Miss Hattie Clark left for Portland, Friday, with her cousin Miss Anna Finley. She expects to spend several months there.

The Rev. B. F. Kephart and wife moved to Pacific grove this week where they expect to reside in future. Their decision to leave Campbell is the occasion of much regret.

Palm Leaf Council, F. A. A. initiated several candidates last Saturday evening afterward feeding them, and also the rest of the company, on strawberries and cream. It is needless to say the evening was enjoyed by all present.

Miss Jessie Wood graduated in elocution at the University of the Pacific last week. Her recitation at the graduating exercises was pronounced by critics, as very fine, as was also her work in dialogue. Miss Wood has given many evidences of marked talent in this direction before Campbell audiences and congratulations upon the finishing of her course were numerous

SILVER BELLS

Revolution in Bread-Making

We have found the flour that is going to make a revo-
lution in Bread Making.

WHY?

It is made from Blue Stem Wheat and Hard Wheat
from Minnesota, and it is blended in such proportions as
to produce flour for bread making that has never before
been offered in this community.

Silver Bell Flour, the miller tells us, contains 28 per
cent gluten.

Housekeepers coming here from the East ask why they
can not obtain flour equal in quality to Pillsbury's Minne-
sota Flour.

The answer is that most California flour is made from
Australian Wheat, while Minnesota's best Patent Flour is
made from Hard Wheat.

SILVER BELL FLOUR is put on the market with the
assurance that it is not excelled in quality by any flour
whether made here or in the East. We claim for Silver Bell
Flour that it will make from eight to ten more loaves of
bread to the barrel than flour made from Australian Wheat
and we are going to offer this carload of Silver Bell Flour
at the regular prices for our local flour:

Barrel.....	\$5.10
100-pounds.....	\$2.55
50 pounds.....	\$1.30

It is our expectation that every bread maker in Santa
Clara county will not rest satisfied with her bread until she
has given the Silver Bell Flour a trial.

ONE time I got an anonymous letter telling me it was uncalled for for me to suggest to anyone else what he should do. The writer said that in general men knew their own business and what they wanted and ought to do; and that advice was not needed. Like all anonymous letters, it was written by some malignant fool who had been enraged because of having failed in life because of violation of the plainest dictates of common sense.

It is not true that men do not wish to be advised. Every day we are appealed to for direction—enquired of as to what we know of this or that course. It is the business of every preacher, in press or pulpit to give advice. I know many men who are thankful for advice pressed upon them in early life. Am acquainted with some preachers who tell other people—not me—that had they not been driven by us into a certain line of consistent and continuous endeavor they never would have acquired the knowledge that was necessary to their success in giving advice to others. There are not many persons who cannot say the same thing. the grim commands given me by earnest men in the long ago kept me from becoming a total wreck.

Every one has influence and most of us desire to use it to help build up the town, state, nation, that there may be progress and success, growth, happiness. And so we, in these columns, must have much to say as to the course the men we see around us should pursue that they may be of use to themselves and others.—Fulton Phillips in McDonald, (Pa.) "Outlook."

A Movement Against Diseased Fruit.

There seems to be a very commendable disposition on the part of the fruit growers in many parts of the State to cultivate the San Francisco market. It has been too much the case heretofore that fruit that could not be shipped or sold anywhere else was considered good enough for the San Francisco market. The result has been that this has become a very poor market, when it should be one of our best, and commission men have been blamed for it, while the fault has been largely with the shippers themselves. The apple growers from Watsonville have taken a vigorous stand against making San Francisco a dumping ground for trash, and now Humboldt has followed the lead and the Horticultural Commissioners of that county are moving to have wormy and diseased fruit condemned by the Board of health of that city. The move is one in the right direction, for the growers of good fruit are the ones who

suffer from the shipment of culls into the market, as the market for good fruit is lowered by the offering of inferior stuff at any price it will bring. People who neglect their orchards, who will not spray or take measures to protect their trees from pests, are in every way a menace to the conscientious orchardist, and should be forced out of business, and this movement for closing our home market against orchard trash will do much toward it.—California Cultivator.

LOCAL NOTES.

Mr. and Mrs. Carnes of Baltimore were guests of the Rev. J. F. Jenness and family recently, leaving Monday to continue their tour of the country.

The Rev. J. F. Jenness and wife left Tuesday for Los Angeles where they will attend the General Conference. They expect to be absent two weeks. Miss Martha Jenness accompanied them. After her visit there she expects to go to New Hampshire to visit her mother a few weeks before entering a New York hospital to take the trained nurse's course.

Mrs. L. F. Shaw went to San Juan a short time ago as the delegate from the local Congregational church to the Congregational Association which met there. While there, she enjoyed the hospitality of Mrs. William Canfield, who as Miss Lillian Williams was once a teacher in Hamilton school and will be remembered by many in this locality. Mrs. Canfield lives in a charming villa composed of the homes of relatives, in a most picturesque part of the lovely San Juan Valley. The grounds are as far as possible, as nature made them, the cultivated orchards and fields being hidden from view of the house. Mrs. Shaw also visited Mrs. William Duncan, formerly of Campbell, and called upon Mrs. Luther Willett and family who are part of the Campbell colony there. Her trip was made delightful by the presence of so many friends and by the exceeding beauty of the country there, which she describes in glowing terms.

C. F. G. U. Meeting.

The annual meeting of the Fruit Growers' Union held Wednesday of last week was of more than ordinary interest on account of progressive action taken in the matter of a cannery and workmen's boarding house. It was definitely decided to proceed at once with these projects, the matter being left with the Board of Directors to carry out. By means of the cannery, all the fruit of stockholders and others can be handled. Whereas in the past, the grades suitable for canning have gone elsewhere. The need of a boarding house is self-evident, all the places of that kind having been overcrowded last year. These enterprises are both sure to be of immense benefit to the town and we hope to

see them carried out without any difficulties.

All directors were re-elected, organizing as follows: J. H. Rucker, president; R. K. Thomas, vice-president; P. W. Keith, S. R. Wade, J. J. Cornell; S. G. Rodeck, secretary; Bank of Campbell, treasurer.

First Graduates From Iowa College.

There were just two members of the first class of the Iowa College when it was at Davenport, before its removal to Grinnell. These two persons were our esteemed Rev. Wm. Windsor, D. D. and his brother Rev. John Windsor D. D., secretary of the Ministerial Bureau of Chicago and Illinois, who is at present visiting here.

The friends of Iowa College in Campbell, San Jose, San Francisco and points around the Bay are to gather this, Thursday afternoon from 2 to 5 o'clock at the home of Dr. and Mrs. C. N. Cooper (Mrs. Cooper being a sister) in Campbell, for the purpose of doing honor to these two members who graduated just fifty years ago and who are both here to enjoy this very pleasant reunion.

Railroads Coming.

S. F. Granger appeared before the Los Gatos town board Monday evening and asked for a franchise through the town. He will appear before the Supervisors at their next meeting and ask for a franchise over a portion of the public highway between Los Gatos and San Jose. This is the road that he proposes building through Union District and into Campbell, thence to San Jose, being almost entirely over private rights of way. O. A. Hale, as president of the Interurban Road was present at the Los Gatos meeting and opposed Granger getting the franchise. Just how it will come out is a matter for the future to show. Mr. Hale wants to secure the short line to San Jose through Campbell, himself.

We understand that Manager Barker has been very successful in securing private rights of way for the First street extension from the Willows to Campbell and our people are very anxious to see this line built. Mr. Tourney has been sincere in his efforts to build this line and the road would have been built before this if Hamilton avenue people had not been led astray by false prophets. At any rate, Campbell is destined to be the center of a great railroad boon in the near future.

Senator E. B. Conklin and wife expect to move to Los Gatos this week where they will in future make their home. The Senator and his wife have long been residents of this vicinity and have been closely identified with progressive movement of the town and their removal is the occasion of much regret.

10:15 a. m. Class meeting.
11:30 a. m. Morning worship.
12:15 p. m. Sunday-school.
6:00 p. m. Senior and Intermediate Leagues.
7:00 p. m. Evening worship.
A cordial welcome will be extended to all these services.

CONGREGATIONAL CHURCH.

REV. GEO. E. ATKINSON, Pastor.

We are always glad to see strangers at our services. We should be pleased to welcome you and to have you worship with us. Feel free to make this your church home.

You will find our meetings bright, brief and brotherly.
Services every Sunday morning and evening. Sunday School after morning service and Endeavor just preceding the evening service. Our midweek service is Wednesday evening.
"Come thou with us and we will do thee good."

The Pastor will occupy his pulpit again next Sunday morning. In the evening there will be a union meeting of the two churches at the Congregational church in the interest of Y. M. C. A. work. Mr. C. W. Janes, Y. M. C. A. Secretary in San Jose, and others will speak. A cordial invitation is extended to all to be present.

All other services as usual.

Not many years ago no one would eat American prunes who could afford French prunes. But this is all changed. It is difficult to find French prunes in the large grocery-stores in some of the Eastern cities, and practically impossible in the Western cities. There is still a small demand for the foreign fruit; last year about four hundred thousand pounds of plums and prunes were imported. Instead of buying prunes abroad we are selling them. Last year the total exports were sixty-six million pounds. The business has grown with surprising rapidity. It was not till 1898 that the exports of prunes were entered as a separate item in government reports. They had been so insignificant that before that prunes were included in the item of "all other fruits." According to the United States consul at Bordeaux, the French buy large quantities of California prunes, and repack them and export them to other countries with French labels on the boxes.

Choice of All Routes East

Is offered by Southern Pacific. You want the best—the one that suits you best. W. A. Karns and G. A. Whitehurst Attorneys for said Administrator.

Dragging Pains

2825 Keeley St.,
CHICAGO, ILL., Oct., 2, 1902.

I suffered with falling and congestion of the womb, with severe pains through the groins. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not, for it seemed that I had tried all and failed, but I had never tried Wine of Cardui, that blessed remedy for sick women. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my veins and after using eleven bottles I was a well woman.

Maudie Bush

Mrs. Bush is now in perfect health because she took Wine of Cardui for menstrual disorders, bearing down pains and blinding headaches when all other remedies failed to bring her relief. Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle convinces the patient she is on the road to health.

For advice in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

San Jose.

CAMPBELL

(THE ORCHARD CITY)

Lies 50 miles south of San Francisco on the Santa Cruz division of the Southern Pacific Railway, 5 miles from San Jose, in the famous Santa Clara Valley, the garden spot of the State.

SCENERY SUPERB

With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheatre is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

EDUCATIONAL ADVANTAGES

Campbell has a population of about 600. It maintains a (third class) post-office which distributes mail to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational—a first class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools.

The Stanford University with its marvelous architecture is only 20 miles away.

NO SALOONS

Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

FINE ROADS AND RESORTS

The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world.

A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

MINERAL SPRINGS

The hot springs of Alum Rock Canyon and Congress Mineral Springs are within two hours' drive, giving a panoramic view of the entire valley.

The Almaden Quicksilver Mines, the largest in the world are within easy access by rail or team.

The largest seed farms in the world only 10 miles distant.

FRUIT CENTER

Campbell's mammoth fruit dryer and packing house is the largest in the world. It has a capacity of over 10,000,000 lbs.

The Campbell Orchard District is noted for the quality of its fruits. For delicacy of flavor and beauty and perfection of color, its cherries, apricots, peaches, apples, plums, grapes and pears, have no equal in their fresh state, and command the highest market price. As cured or dried fruit the Campbell prune, apricot, and peach is shipped to every civilized country on the globe. Nearly one-half of all the prunes grown on the continent are from Campbell orchards. One and a half million cans of fresh fruits are packed in Campbell every season.

The demand for intelligent labor is increasing every year. Families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

LAND VALUES MODERATE

Land values are very moderate—bare land brings from \$100 to \$300 per acre and when set to trees sells from \$200 to \$1,000 per acre, according to location and age of orchard. Ten to fifteen per cent is an average net income, while many places yield a much higher rate.

In short a Campbell home is one surrounded with HEALTH, WEALTH AND PLEASURE.
